

This family, the Kvapils, drove their Y Type all the way from Nebraska to participate in the Lap of New England. They are (l to r) Jared, Linda, and David.

Lap Of New England Is An Unqualified Success

The New England M.G. T Register's 10 day Lap Of New England won high praise from all 85 of the crews who went on the event. T Series and vintage M.G.s came from all over America and Canada to participate. No day's trip covered more than 170 miles so there was plenty of time to sightsee in beautiful New England. Starting in Keene, NH, the trip went to Stowe, VT; Gorham, NH; Augusta, ME; Bar Harbor, ME; Portsmouth, NH; Boston, MA; Newport, RI; Mystic, CT; and ended at Jiminy Peak, MA. The organization of the event by Joe Joslin was superb.

The Lap Of New England was one of a series of Register events that put the emphasis on driving the M.G. Next year, 100 cars from this organization are going to England for a three week tour. Like to drive your M.G.? Better join the Register...write M.G. Drawer 220, Oneonta, NY 13820.
